

## Decision 2/CP.10

### Capacity-building for developing countries (non-Annex I Parties)

*The Conference of the Parties,*

*Recalling* its decision 2/CP.7 to conduct a comprehensive review of the implementation of the framework for capacity-building in developing countries, and decision 9/CP.9 to complete the review at its tenth session and to conduct further comprehensive reviews every five years thereafter,

*Reaffirming* that decision 2/CP.7 should continue to be the basis for and guide the implementation of capacity-building activities in developing countries, and that it remains effective,

*Reaffirming also* that the guiding principles, the approaches and initial scope for the capacity-building framework, as contained in the annex to decision 2/CP.7, are still valid and important in advancing the purpose of the capacity-building framework for developing countries and in contributing to the objective of the Convention,

*Noting* that whereas a range of the priority issues identified in the capacity-building framework are being addressed by the Global Environment Facility and its implementing agencies, as well as other multilateral and bilateral agencies, significant gaps still remain to be filled and access to financial resources remains an issue to be addressed,

*Noting also* that the preparation of national communications and of national adaptation programmes of action in least developed countries and of a range of other activities has contributed to the development of individual level capacity within and across institutions and has trained individuals from different sectors, including non-governmental actors,

*Noting* that Parties, in general, continue to involve different stakeholders, such as non-governmental organizations, academic institutions, and, in some cases, the private sector, in implementing capacity-building activities,

*Acknowledging* that activities, projects and programmes implemented should continue to put emphasis on defining realistic results, identifying programme beneficiaries, monitoring the progress made towards expected results, identifying and managing risks and providing information on results achieved,

*Welcoming* the strategic approach of the Global Environment Facility towards enhancing capacity-building with the aim of providing adequate support for nationally determined and prioritized capacity-building needs,

*Having taken note* of the terms of reference of the first comprehensive review of the implementation of the framework for capacity-building in developing countries, contained in annex III to the report of the Subsidiary Body for Implementation at its eighteenth session,

*Acknowledging* all inputs into the comprehensive review, such as national communications and submissions from Parties, multilateral organizations and the secretariat, as well as from the various assessments, document FCCC/SBI/2004/9 as well as the meeting of capacity-building practitioners held on 3 December 2004 in Buenos Aires, Argentina,

1. *Decides* that the scope of capacity-building needs, as contained in the framework for capacity-building in developing countries, annexed to decision 2/CP.7, is still relevant and that the

3. *Requests* the Global Environment Facility, as an operating entity of the financial mechanism, to take into account the key factors identified in paragraph 1 of this decision in the context of the projects of the operating entity of the financial mechanism, when supporting capacity-building activities in developing countries in accordance with decisions 2/CP.7 and 4/CP.9 and as defined in the Strategic Approach to Enhance Capacity-Building;<sup>1</sup>
