*Note:* Assumptions used for calculating the conference services contingency budget include the following:

- The expected number of meetings with interpretation does not exceed 40 per session;
- The expected documentation volume is based on average output in the period 1997–2006 and on projections for the additional reporting requirements arising in 2008–2009, assuming about 1,600 pages annually for translation and revision, and a total of about 5,100 pages annually for reproduction and distribution; the number of copies produced per page is assumed to be about 2,000 for general and about 100 for limited distribution;
- Meetings services support includes staff normally provided by United Nations Office at Geneva conference services for the in-session coordination and support of interpretation, translation and reproduction services;
- Overall, the figures used are conservative and have been applied on the assumption that there will be no major increase in requirements during the biennium.

<sup>a</sup> Includes salaries, travel and daily subsistence allowance for interpreters.

<sup>b</sup> Includes all costs relating to the processing of pre-, in- and post-session documentation; translation costs include revision and typing of documents.

<sup>c</sup> Includes salaries, travel and daily subsistence allowance for meetings services support staff and costs for shipment and telecommunications.
